Subject Index

Abscess
liver, primary tuberculous, HIV-associated, 145
of psoas muscle, *see* Psoas muscle
sternal, as a complication of BCG vaccination, 67
Acid fast stained smears of gastric aspirate specimens, reliability, 205
AIDS
pleural effusions in, assay of antibody response to Mycobacterial antigens in diagnosis of, 303
tuberculosis and, 71, *see also* HIV
Allergenic potency of four BCG substrains used in China, 283
Amoebic disease, corticosteroid-precipitated, 219
Antibody response to mycobacterial antigens, assay of, in diagnosis of pleural effusion in AIDS, 303
Antigens
group ii slow-grower associated, category of responders to, 275
mycobacterial
antibody response to, assay of, in diagnosis of pleural effusion in AIDS, 303
competition ELISA for detection of, 209
Antituberculosis drug(s)
ciprofloxacin activity combined with standard, against *M. tuberculosis*, 193
resistance to, in Gujarat (India), 37, *see also specific drugs*
Aspergilloma, *M. xenopi* infection and, 139
Aspirate specimens, gastric, acid fast stained smears of, reliability, 205

Bacteriophage typing of *M. tuberculosis* cultures, 43
BCG substrains used in China, protective and allergenic potency of four, 283
BCG vaccination
high dose, biphasic memory T-cell response to, in mice, 125
in Norway (1956–73), protective effect, 119
sensitisation by mycobacteria and the effects of, in children in Bombay, 293
sternal abscess as a complication of, 67
Blood, peripheral, in pulmonary tuberculosis, cellular response of, 161
Book Review
Bryder, L., Below the Magic Mountain: A Social History of Tuberculosis in Twentieth-Century Britain, 230
Bronchoalveolar lavage
with miliary tuberculosis, 175
with pulmonary tuberculosis, cellular response in, 161
Bronchoscopy, fibreoptic, extension of pulmonary tuberculosis after, 57

Ceforanide activity against virulent tubercle bacilli in macrophages, 15
Cellular response in bronchoalveolar lavage and peripheral blood with pulmonary tuberculosis, 161
China
protective and allergenic potency of four BCG substrains used in, 283
risk factors for pulmonary tuberculosis in sanitary workers in (Shanghai), 105
Ciprofloxacin activity against *M. tuberculosis*, 193
Clofazimine activity against *M. avium*, 179
Coeliac disease, tuberculosis in, susceptibility to, 267
Cold stain and Ziehl-Neelsen stain, comparison of, 227
Contamination, cross-, suspected laboratory, typing of *M. tuberculosis* cultures in incidents of, 43
Cross-contamination, suspected laboratory, typing of *M. tuberculosis* cultures in incidents of, 43

Diagnostic measures in Bavaria (1974–76), surveillance of, 255
DNA sequences, detection in uncultured clinical specimens, 27
Doctors, hospital, tuberculosis in, 237, *see also* Health Service staff
Drainage, percutaneous, of tuberculous abscess of psoas muscle, 63

Effusions, pleural, *see* Pleural effusions
ELISA, competition, for detection of mycobacterial antigens, 209
Endobronchial tuberculosis, delayed diagnosis, serious sequelae of, 213
Ethanol utilisation by *M. xenopi*, as sole carbon source, 153
Exudates, tuberculosis, mycobacterial antigens in, ELISA for detection of, 209

Fibreoptic bronchoscopy, extension of pulmonary tuberculosis after, 57

Gastric aspirate specimens, acid fast stained smears of, reliability, 205
Germany (West), surveillance of diagnostic and treatment measures in (1974–76), 255
Group ii slow-grower associated antigens, category of responders to, 275

Health Service staff, pulmonary tuberculosis, in, 113, *see also* Doctors
Heat enhancement, effect on mycobacterial growth, 197
HIV, primary tuberculous liver abscess associated with, 145, *see also* AIDS
Hospital doctors, tuberculosis in, 237

Immune status in tuberculosis and its response, 81
Immunity, memory, with BCG vaccination in mice, 125

India
antituberculosis drug resistance in (Gujarat), 37
sensitisation by mycobacteria and effects of BCG on children in (Bombay), 293
Inoculation of *Mycobacterium* onto media, pipette and loop use in, comparison, 232
Isoniazid
effect on virulent tubercle bacilli in human macrophages, 15
pulmonary tuberculosis resistant to, clinical trial for treatment of, 5

Japan, biotype changes in *M. avium-M. intracellulare* complex causing lung disease in, 133

Kampuchea-Thailand border, refugees along, tuberculosis management in, 95

Lavage, bronchoalveolar, *see* Bronchoalveolar lavage
Liver abscess, primary tuberculous, associated with HIV, 145
Loop and pipette use in inoculation of *mycobacterium* onto media, comparison, 232
Lymphadenopathy, retroperitoneal tuberculous, psoas abscess due to, 299

Macrophages, isoniazid and ceforanide effects against virulent tubercle bacilli in, 15
Memory (T-cell) response to high dose BCG vaccination, biphasic, 125
Miliary tuberculosis, bronchoalveolar lavage with, 175
Molecular biology, hopes and challenges involving, 1
Mycobacterium (general)
antigens to, *see* Antigens
effect of heat enhancement on growth of, 197
sensitisation by, effects of BCG and, in children in Bombay, 293
Mycobacterium avium complex
clofazimine activities against, 179
rifabutin and rifampicin activities against, 187
rimino-compound activities against, 179
Mycobacterium avium-M. intracellulare complex causing lung disease, biotype changes in, 133
Mycobacterium marinum, ethanol utilisation as sole carbon source by, 153
Mycobacterium tuberculosis
ciprofloxacin activity against, 193
cloned DNA, detection of mycobacterial DNA sequences in uncultured specimens with, 27
phage typing of cultures of, 43
Mycobacterium xenopi, pulmonary infection with aspergilloma and, 139
post-surgical outcome, 47

Norway, BCG vaccination in (1956–73), protective effect of, 119

Pancreas, tuberculosis of the, 149
Percutaneous drainage of tuberculous abscess of psoas muscle, 63
Peripheral blood with pulmonary tuberculosis, cellular response in, 161
Phage typing of *M. tuberculosis* cultures, 43
Pipette and loop use in inoculation of *mycobacterium* onto media, comparison, 232
Pleural effusions
in AIDS, assay of antibody response to mycobacterial antigens in diagnosis of, 303
tuberculous, corticosteroids prescribed for, amoebic disease precipitated by, 219
Psoas (muscle) abscess
percutaneous drainage of tuberculous, 63
retroperitoneal tuberculous lymphadenopathy-associated, 299
Pulmonary tuberculosis/disease/infections
bronchoalveolar lavage with, cellular response in, 161
extension, after fibreoptic bronchoscopy, 57
in Health Service staff, 113
isoniazid-resistant, clinical trial for treatment of, 5
M. avium-M. intracellulare complex causing, biotype changes in, 133
M. xenopi-associated, post-surgical outcome, 47
peripheral lavage with, cellular response in, 161
retreatment regimens for, 241
risk factors for, in sanitary workers in Shanghai, 105
Pyrazinamide-induced thrombocytopenia, 217

Radiometric medium, mycobacterial growth in, effect of heat enhancement, 197
Refugees along Thai-Kampuchean border, tuberculosis management in, 95
Responders to group ii, slow-grower associated antigens, category of, 275
Retreatment regimens for pulmonary tuberculosis, 241
Rifabutin activity against *M. avium* complex, 187
Rifampicin
activity, against *M. avium* complex, 187
resistance to, acquired, in Gujarat (India), 37
Rimino-compound activities against *M. avium*, 179
Risk factors for pulmonary tuberculosis in sanitary workers in Shanghai, 105

Slow-grower associated antigens, group ii, category of responders to, 275
Stenosis, tuberculous, of the trachea, 223
Sternal abscess as a complication of BCG vaccination, 67
Surgery, outcome of pulmonary infection with *M. xenopi* following, 47
Surveillance of diagnostic and treatment measures in Bavaria (1974–76), 255

T-cell response, biphasic memory, to high dose BCG vaccination, 125
Thai-Kampuchean border, refugees along, tuberculosis management in, 95
Thrombocytopenia, pyrazinamide-induced, 217
Trachea, tuberculous stenosis of the, 223
Vaccination, BCG, *see* BCG vaccination
West Germany, surveillance of diagnostic and treatment measures in (1974–76), 255
Ziehl-Neelsen stain and cold stain, comparison of, 227
